

- What I made?
- A simple react app which will just show some fun facts about React.
- In this project I have used :
 - 1.React.js

2.Javascript

3.CSS

4. HTML

- Concepts I learned from this Project?
 1. What is JSX?
 2. How to make react custom Components.
 3. What are Parent/Child Components?
 4. How to Organize React Components.
 5. Some CSS properties and Styling.

The overall Website will look like this

Fun facts about React

- Was first released in 2013
- Was originally created by Jordan Walke
- Has well over 100K stars on GitHub
- Is maintained by Facebook
- Powers thousands of enterprise apps, including mobile apps
